SPOT

FX spot agreements allow two parties to buy one currency against selling another currency at an agreed price for settlement on the settlement date.

FORWARD

Lock in the exchange rate for the purchase or sale of a currency on a future date through a binding contract in the foreign exchange market.

OPTIONS

Derivative financial instrument for FX option or currency option gives the right, but not the obligation, to exchange money denominated in one currency into another currency at a pre-agreed exchange rate on a specified date.

NDF

A non-deliverable forward is a foreign currency financial derivative contract which differs from a normal foreign currency forward contract because there is no physical settlement of the two currencies at maturity.
